SALT, LLC

The problem?

Shortages of salt...
No salt. It's the
reality of the snow and
ice management business.

Unfortunately, this leaves many
companies and contractors scrambling for product
at the last minute... if acquiring it is even possible!

The answer? Abraxus Salt, LLC.

In 2001, Abraxus built the first privately-owned
salt dome from Cleveland to the eastern seaboard
to fully compliment Abraxus Snow Removal, Inc.
Armed with a full staff of loaders, scale operators
and drivers 24 hours a day during the winter season
and capable of holding 6,000 tons of salt, this facility
has revolutionized service levels and product
availability. Today, Abraxus is one of the largest
private distributors of Cargill products (bulk, bagged
and Clearlane—For more information visit
cargill.com) in the region.

The result? This past winter season Abraxus
leveraged resources from seven states to supply
their loyal portfolio of business partners armed with
salt and de-icing products to keep companies and
contractors open for business.

YOU HAVE QUESTIONS

WE HAVE ANSWERS

WHY NOW!

A winter storm event is fast approaching northern Ohio. You know that it will negatively impact travel as well as create safety and business liability issues. An uneasy feeling starts to build quicker than the arriving weather.

Do you know where your snow removal contractor is??

Has your current contractor failed to perform? In most circumstances it revolves around the following issues:

- * Bad or unreliable service
- * Hidden fees
- * Invoices higher than the original quote
- * Poor/no communication
- * Inflexible contract terms
- * The "low bid" chosen from last year is unqualified

With the harsh winter weather associated with northern Ohio, choosing the right snow removal partner is critical!

Enter Abraxus Snow Removal, Inc.
